Empowering People Through Books

How we can help you create a long-term culture of reading and self-education in your organisation.

WE FORMALISE YOUR READING KNOWLEDGE

Reading is not acknowledged as a source of education and is given no tangible credit. We're changing that by certifying the knowledge your employees gain from reading. Bookt allows them to challenge themselves & have something to show for it.

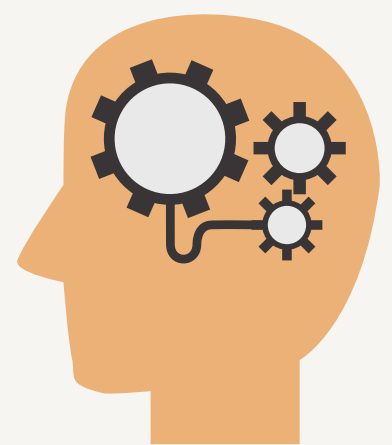

WE HELP YOU BUILD A SUSTAINABLE READING HABIT

We help your employees build a sustainable reading habit through our tracking & accountability feature. A workforce that reads is one that leads. This results in a massive long-term benefit to your employees and organisation.

WE HELP YOU STORE YOUR KNOWLEDGE

Reading a book is important, but retaining what you've read is the real prize. Our platform allows your employees to add notes, insights and reflections to the books they read. All their knowledge is centralised & stored. They can review it & refresh their memory at any time.

WE HELP YOU SHARE YOUR KNOWLEDGE

Social learning is crucial as it helps build a reading & learning culture in your organisation. Bookt allows your employees to share their learnings, insights & notes with each other. They'll be learning from their books as well as one another.

Bookt is changing the way organisations approach learning and development.

"If one good book can change your life, imagine what a reading habit can do" - Unknown
